

## Your Adobe subscriptions are about to renew

We wanted to let you know that one or more of your annual Adobe subscriptions will automatically renew on 27-May-2023.

You will continue to have uninterrupted access to your favorite apps and services. **No further action is required.**

The price of your Creative Cloud product subscriptions is increasing for Adobe's direct resale partners.

Your account manager sets the actual price of your subscription, so contact your account manager for updated pricing. Your annual subscription will automatically renew with Adobe at the partner price in effect on your Anniversary Date and for your qualifying discount level (prices subject to change) unless you cancel via your account manager at least 3 days before your Anniversary Date.

Thank you for being a valued Adobe Customer,  
The Adobe Team
